What do you think about just sending this collection of 3 tables from the earlier briefing this week - data Tables?

(See attached file: What Range of Contaminants Have been Observed in Dimock PA.docx)

Jon,

Here are the two slides we'll be adding. Karen has a format for the pre- and post-drilling data that she can use in the second slide.

Subject: two more slides

Karen,

If you can add the information we talked about early tomorrow that would be great. Kudos to your group for the tremendous effort to get through all the data so quickly, especially when more keeps coming.

Will also send these to Jon so he can forward to HQs tonight with explanation that we will fill in more details in the morning.

Angela
